

KOTTE PANDURANGAREDDY

Nandyal, Andhra Pradesh | +91 8897277078 | kotte.pandurangareddy@gmail.com

PROFESSIONAL SUMMARY

Analytical and results-driven Data Science student with technical proficiency in Machine Learning (ML), Python, and SQL. Proven track record of developing predictive models, including a CatBoost classification project, and architecting full-stack applications using Flask. Demonstrated leadership through managing large-scale college events, showcasing strong project management and cross-functional team coordination skills.

EDUCATION

- **Pre-University Course** | IIIT Srikakulam | Graduated 2023
- **Bachelor of Technology in Computer Science and Engineering** | RGM College of Engineering and Technology | Expected July 2027

TECHNICAL SKILLS

- **Programming Languages:** Python (Advanced), Java, SQL (PostgreSQL, SQLite), JavaScript
- **Data Science & Analysis:** Exploratory Data Analysis (EDA), Pandas, NumPy, Scikit-learn.
- **Machine Learning:** Supervised Learning (Classification & Regression), CatBoost, Hyperparameter Tuning, Model Evaluation
- **Data Visualization:** Matplotlib, Seaborn
- **Web Development:** Flask Framework, HTML5, CSS
- **Tools & Version Control:** Git, GitHub, Jupyter Notebook, VS Code

CERTIFICATIONS

- DATA ANALYST ASSOCIATE CERTIFICATION – [DATA CAMP]
- PYTHON FOR DATA SCIENCE – [IBM]
- AUTOMATION ASSOCIATE DEVELOPER – [UIPATH]
- CYBERSECURITY FUNDAMENTALS – [IBM]
- ASSOCIATE DATABASE ADMINISTRATOR – [MongoDB]
- DATABASES AND SQL – [RaspberryPiFoundation]

PROJECTS

Heart Failure Prediction using CatBoost | May 2025 – June 2025

- Engineered a robust classification model using Python to predict heart failure risk based on clinical parameters.
- Conducted comprehensive Exploratory Data Analysis (EDA) and preprocessing, including feature scaling and data normalization using Pandas and Scikit-learn.
- Evaluated and compared performance across multiple algorithms, including Logistic Regression, SVM, and Random Forest.
- Achieved 94% accuracy and a 0.92 F1-score using CatBoost, outperforming Random Forest by 7%

Student Time Management Application | JULY 2025 – OCTOBER 2025

- Architecting a full-stack web application using the Flask framework to help students quantify and manage academic task durations.
- Developing a responsive user interface with HTML, CSS, and JavaScript to facilitate task input and real-time progress tracking.
- Designing backend logic and estimation algorithms to deliver personalized time-management insights and visual data representations.

Pulse Predict Agent | December 2025

- Developed an **Agentic AI system** to assist public hospitals in predicting OP/IP patient flow and optimizing resource allocation.
- Designed AI agents for:
 - Patient inflow prediction
 - Staff allocation recommendations
 - Medicine and oxygen shortage forecasting
 - Automated night-shift report generation
- Utilized data-driven forecasting, rule-based decision logic, and Python-based pipelines to simulate real hospital scenarios.
- Focused on scalability and real-world applicability for government hospitals.

HACKATHONS & ACHIEVEMENTS

Participant – GDG Hyderabad Agentathon

- Participated in the GDG Hyderabad Agentathon, which set a Guinness World Record for the most participants in a single hackathon.
- Collaborated with diverse teams to build agent-based AI solutions under strict time constraints.
- Gained hands-on exposure to large-scale collaborative AI development and real-world problem solving.

WORK EXPERIENCE

AI & Software Engineer Intern | Oscowl AI

March 2026 - Present

- Developed and experimented with multiple AI models using open-source frameworks and tools.
- Served as a key contributor in building a real-time live translation system, focusing on AI model development.
- Integrated backend components to streamline collaboration across team modules and ensure smooth end-to-end functionality.
- Collaborated with team members on model deployment, API integration, and overall system development.

I declare that the details mentioned above are authentic and accurate to the best of my knowledge.
